ABOUT ME

I am a Software Engineering graduate with a strong interest in becoming a Software Engineer. I have solid problem-solving skills and hands-on experience through internships, academic projects, and freelance work. My expertise includes designing and developing websites on both the frontend and backend. In addition, I am proficient in using tools such as Microsoft Word, Excel, PowerPoint, and Canva to create professional documents and presentation layouts. I am highly motivated to apply my knowledge and skills to contribute effectively to projects and professional environments.
